On days where a high number of people are expected in the ESIS Conference Centre, a park and ride facility will be announced between ESIS and the Makro car park.

When the ESIS car park is full you will be directed by our Site Manager to the Makro car park (please also see the map opposite for guidance).

At the Makro car park a member of ESIS staff will direct you to the ESIS area of the car park (as you approach Makro please use the area to the left hand side that is furthest from the store). A mini bus will then be available to bring you back to the conference centre.

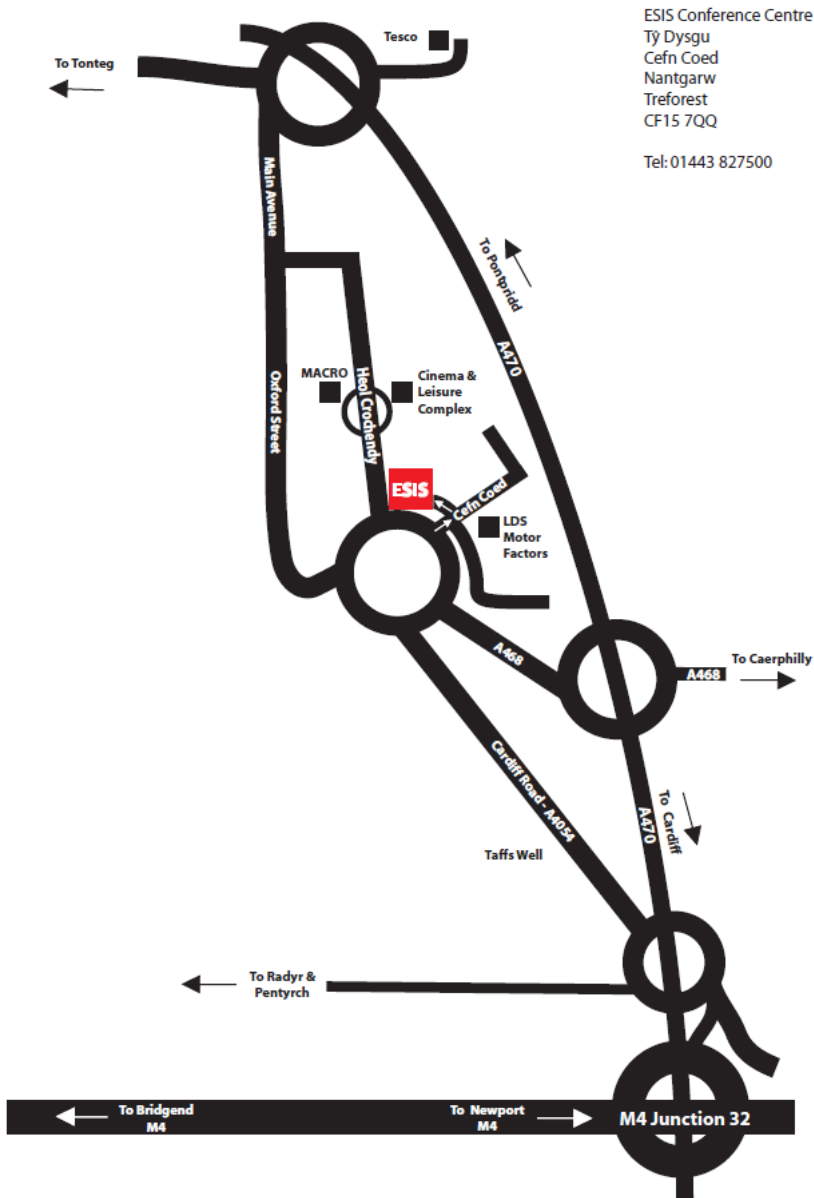

If you arrive at the Makro car park outside of peak hours and a mini bus is not available please telephone 01443 827500 for assistance.
